PARENTING TIP OF THE MONTH

Family creates the foundation on which children will build the rest of their lives. Parents are both leaders and models, so children will learn fundamental skills, including relationship skills, from their families. Parents must reflect on whether the lessons they are modelling for their children are ones that will serve them well in their adult lives. Important to parents' role is building within their children a foundation of faith by engaging in prayer, attending Mass, reading the Bible as a family and taking part in acts of service. This development of faith will help guide children's actions as they become more independent. It will also ensure they understand that God is always with them.
