### PARENTING TIP OF THE MONTH

Family creates the foundation on which children will build the rest of their lives. Parents are both leaders and models, so children will learn fundamental skills, including relationship skills, from their families. Parents must reflect on whether the lessons they are modelling for their children are ones that will serve them well in their adult lives. Important to parents' role is building within their children a foundation of faith by engaging in prayer, attending Mass, reading the Bible as a family and taking part in acts of service. This development of faith will help guide children's actions as they become more independent. It will also ensure they understand that God is always with them.

*Good and Gentle God,*

We pray in gratitude for our mothers who have joined with you in the wonder of bringing forth new life. You who became human through a woman, grant to all mothers the courage they need to face the uncertain future that life with children always brings.

Give them the strength to live and to be loved in return, not perfectly, but humanly.

Give them the faithful support of husband, family and friends as they care for the physical and spiritual growth of their children.

Give them joy and delight in their children to sustain them through the trials of motherhood.

Most of all, give them the wisdom to turn to you for help when they need it most.

We entrust all our intentions to the loving care of the Blessed Virgin Mary, our model of grace and motherly love.

*Happy Mother's Day!* —Fr. Jozef
